

MINISTRY OF HUMAN CAPACITIES
MINISTER OF STATE FOR SPORT

Budapest, 3 November 2017

Andre Debruyne M.D.

President

European Federation of Sports Medicine Associations

Prof. Emin Ergen

Secretary General

European Federation of Sports Medicine Associations

Subject: Promotion of the candidacy of the Hungarian Society for Sports Medicine to host the 12th EFSMA Congress in Budapest in 2021

Dear Mr. President,

Dear Mr. Secretary General,

As Minister of State responsible for Sport, allow me to express my fully promotion regarding the candidacy of the Hungarian Society for Sports Medicine to host the 12th European Federation of Sports Medicine Associations (hereinafter mentioned as: EFSMA) Congress in Budapest in 2021.

The sport sector disposes of high priority in Hungary. To support this statement, our country held around 100 international sport events this year, just to mention for instance the FINA World Aquatics Championships in July and the Judo World Championships in August. By hosting this highly relevant international events our objective is not only to become a sport nation, but also a nation that practice sports. All of the above mentioned justify the growing

importance of sports physicians which could be facilitated by hosting the 12th EFSMA Congress in Budapest in 2021.

I would be proud if I could contribute to the successful application of hosting the EFSMA 2021 Congress in Budapest.

Yours sincerely,

Dr. Tünde Szabó
